

# MELODIA

Machine Presentation

# HIGHLIGHTS

- Reduced footprint and height
- Ability to offer a wide range of products (snacks, cans and bottles)
- Smart, high tech design easy to integrate into even the smallest location
- Available with or without Electronic Tray Labels (ETL)

## DESIGN & USER INTERFACE

- Elegant black and silver aesthetics in line with Opera, Tango and Festival Classic
- LED lighting of the internal cabinet for optimum product visibility
- Newly designed vend bin with flat surfaces, easy to customise
- New 'capacitive' touch sensitive keyboard
- Capacitive keyboard backlit by blue neon LED lights
- Interface panel with large graphical display designed in line with Opera, Tango and Festival Classic
- Possibility to install up to three payment systems and the same time

# ELECTRONIC TRAY LABELS (ETL)

Electronic Tray labels (ETL) can help boost sales, improve the consumer experience and simplify operating tasks:

- Clear digital prices which are easy to read
- You can highlight product promotions, set automatic price changes and show basic nutritional information which all help to boost sales
- The planogram can be shown underneath each selection which can help the operator when filling the machine
- You can remotely manage the price changes and product messages by Vend Track

# DIMENSIONS

Height  
1700mm

Weight 195 Kg
